

Business Internet Access (Fibre)

SOLUTION OVERVIEW

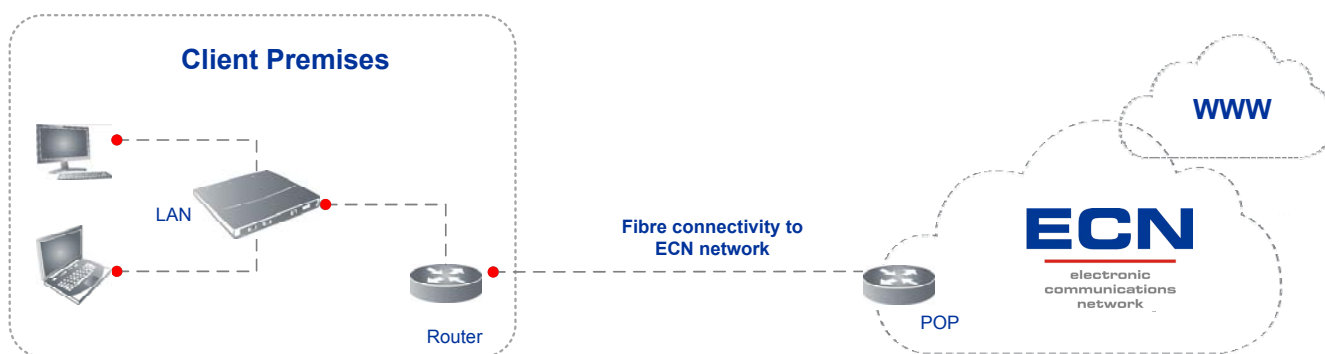

Business Internet Access (Fibre) is a data solution offering which provides businesses with high performance and cost-effective Internet connectivity via Fibre. Data and voice are transmitted via a dedicated fibre pair from your office to the nearest data centre. Fibre connections are available in the Cape Town and Johannesburg CBD's up to a 25km radius, and

Umhlanga, Durban and Bloemfontein CBD's up to a 10km radius. There are compelling advantages to Fibre over other traditional connectivity solutions - better speed, balanced symmetry, low latency, and increased security. Business Internet Access (Fibre) is the ideal solution for businesses that would like to significantly and affordably elevate their internet service.

FEATURES & BENEFITS

- ▶ Reliable, fast, low latency Fibre Internet access
- ▶ 50Mbps and 100Mbps options available
- ▶ Equipment supplied as part of the solution
