VIRTUAL BOARDROOM

Solution Overview

Virtual Boardroom™ is a FREE cloud-based teleconferencing service which is fully managed, easy to deploy, and available on-demand.

This convenient service allows multiple participants to seamlessly connect to a single teleconference call. Conference participants are able to bring stakeholders together cost effectively and without having to follow onerous pre-booking procedures, commit to contractual obligations, pay monthly subscriptions or deploy complex and expensive infrastructure in their organisations.

Virtual Boardroom™ is quick and easy to use - simply dial, enter your PIN and teleconference. There are no once-off charges or monthly service fees to use the service.

Standard call rates apply; these are charged individually to all participants by their telephony service provider.

Features and Benefits

- ✓ No installation, subscription or monthly rental fees.
- ✓ No contractual obligations.
- ✓ No restrictions on the amount of participants.
- ✓ Secure service with PIN registration and enrolment.
- ✓ Cost effective calls for ECN clients.
